E-mail

Nautor Swan Event I will be attending:

I declare that the boat has not been modified to exceed Nautor standard data for that model of Swan (e.g. larger sails, reduced boat weight, etc) in any way beneficial to the speed of the boat. If I make any changes to the boat that might make the preceding statement inapplicable, I will notify the Regatta Office immediately. I am prepared to make my boat available for check measurements at any reasonable time.

Please send a signed copy of this document to the event organiser.
